

Production Manager sought for Denmark's only elevator production

Do you have competencies in electrical engineering, mechanics and steel as well as management experience? Then come be part of the team in Denmark's only elevator-manufacturing company.

HYDRO-CON is a smaller company with more than 30 years of experience in developing, manufacturing and installing elevators and lifts. Our products are Danish designed, high quality, meet standards and regulations, and guarantee a long shelf life and life span.

The production takes place in our facility in Gilleleje and the production team consists of 8 experienced and independent employees. We manufacture elevators that are all-in-one solutions, i.e. they are manufactured and installed with their own self-sustaining shaft, cabin and machinery as a complete device. In addition, we produce freight and person stairlifts and other special products.

We are looking for a Production Manager with strong management skills, who will be responsible for day-to-day planning in our production, as well as coordination with the rest of the organization.

These are some of the tasks that will fall under you:

- Responsible for the management of the production, including planning meetings, etc.
- Responsible for employee administration, hour consumption and hour registration.
- Responsible for AT (Labour Inspectorate) and safety in production.
- Responsible for quality control and product review in production.
- Responsible for handling the warehouse, purchasing materials, goods, as well as price negotiations with suppliers.
- Responsible for the department budget.
- In cooperation with the Project Manager, it is your responsibility to meet production deadlines.
- Control the workflows, trimming and cleaning.

We think that the following might describe you:

- You have a technical background in machine or production.
- Between 5-10 years of management experience.
- You make a virtue of meeting sharp deadlines.
- You are good at motivating your colleagues and dealing with stakeholders.
- You work in a structured and process-oriented way.
- You are not afraid of conflicts and dealing with problems.
- You are dutiful, can work independently, and not afraid to take responsibility.
- Having competences within AUTOCAD as well as drawing comprehension is an advantage but not a requirement.
- Having a background in electrical engineering, mechanics and steel is an advantage but not a requirement.

About HYDRO-CON

HYDRO-CON is a Danish family-run company founded in 1988. Since then they have been involved in the development, production, installation and service of their own elevators and lifts for public as well as private construction. They have almost 5000 installations installed in primarily Denmark, but also in the rest of Scandinavia and Greenland.

Here's how to get started

Your application must contain

1. Write a maximum of 1 page about your motivation for applying.
2. Also attach your CV, as well as anything else you find relevant (grade sheets, recommendations or anything that shows who you are).

We will read applications and call for talks on an ongoing basis! We expect you to be able to start early April / May 2021.

Send the application to info@hydro-con.dk marked "Production Manager". If you have any questions about the position, you are welcome to contact Ulrik Oldenburg at ulol@hydro-con.dk, or by phone 27615401.

We are looking forward to hear from you!
